Becoming You.

Patient Advocacy.
Scared, shy, alone to

Brave, fearless, and bold.

First surgery, 2007
Learning to live normal.
Surgery #2
Learning to be bold
Finding your motivation
Surgery #3
How do you take care of yourself while being a patient advocate...
Surround yourself with love
...And with those who make you smile
...And those who inspire you
...And those who support you
… You take this broken you are feeling, and turn it into something beautiful. You create your own family, your own story. You are the hero you need.
